

Planning Request Intake Form

S&OP Planning — Germany DC Network

Request ID	REQ-2026-Q2-0417
Submitted by	Stefan Krüger — Plant Director, ACME Munich
Date submitted	Monday, 20 April 2026 · 08:14 CEST
Planning horizon	Q2 2026 (01 Apr – 30 Jun 2026)
Scope	Germany DC network: W1 Hamburg, W2 Berlin, W3 Munich
Destinations	D1 Paris · D2 Vienna · D3 Amsterdam
SKUs in scope	SKU-001, SKU-002, SKU-003
Priority	High
Target solver	Quantagonia HybridSolver (MILP / LP)
Expected turnaround	< 4 hours end-to-end
Budget	Max 8 solver-minutes this request (tenant: acme-logistics)
Classification	Confidential — Internal Use Only

Attachments Checklist

■	warehouse_capacity.csv	Warehouse monthly capacities (Hamburg, Berlin, Munich).
■	routing_matrix.csv	Cost EUR/ton across 27 warehouse × destination × SKU combinations.
■	demand_forecast_q2.xlsx	Monthly demand by SKU and destination, plus Q2 summary (Rev. 3).
■	union_contract_munich.pdf	IG Metall collective agreement (BV-MUC-2026-003) — §2, §5, §9 relevant.

Planning Notes

- All monthly demand must be fully satisfied — no backorders permitted this quarter.
- Munich DC (W3) capacity is reported in **kilograms** per §9 of the collective agreement. The solver intake agent is responsible for normalising to tonnes before compilation.
- SKU-001 should prefer Munich (W3) routing where cost-effective, consistent with the Q1 board decision on southern European demand.
- Weekend overtime is **not permitted** this quarter (§5). No Notfall declared.

Approvals
